Are you worried about not being able to keep your heating on?

If you're struggling with energy costs, you might be entitled to emergency financial support:

- **Fuel vouchers to top up your prepayment meter**
- **Credit towards your electricity bill or district heating account**
- **Emergency payment towards the cost of heating oil, coal or LPG gas**

You don't have to be on benefits to be eligible, so call 0800 0308780 for more info - or if you have a support worker, they will be able to help.
