

A Brief Guide to Easy Read

Easy Read Documents

Easy Read is about making written information easier to understand. Easy Read documents have short, simple sentences often with pictures.

Easy Read is also known as:

- making information easier
- easier to understand information
- simple words and pictures
- easy write
- easy info.

Easy Read documents are used to make information more accessible to people with learning disabilities. They can also be useful for people with other communication difficulties including:

- acquired brain injury
- dyslexia
- people with hearing impairment whose first language is British Sign Language (BSL)
- people who do not speak English as their first language
- people who find reading difficult.

Disability Discrimination Act

Public authorities have a duty to promote equality and eliminate discrimination. This may involve making sure that disabled people have equal access to information.

There are two kinds of Easy Read documents.

Group 1: for the general population

These include documents that will be used by a lot of people. They may be an easy version of a more complex document.

Example: an easy read version of an Act of Parliament

Or, the easy read version may be the only one produced.

Example: a voluntary organisation supporting adults with a learning disability decides to make all its documents in easy read

Group 2: personalised

These include documents written for one person or, a small group of people. For example, people who share the same house. The words will be about that person or group and the pictures may be photographs of people and places that they know.

Example: the kind of support that a person needs

Some types of information are so specific they are going to be of use to only a handful of people. Instead of spending money on an easy read version, maybe you could simply speak to these people over the phone or in person.

Example: how to do a job

Easy Read documents will not meet the needs of everyone who has difficulties in reading and understanding written information.

Easy Read documents will:

- allow some people to access the information independently
- provide a useful tool for support workers when working with individuals or groups.

Easy Read documents are just one way of helping people understand information. Other ways include:

- speaking to someone
- film (DVD or internet sites like YouTube)
- Audio recordings (CD, MP3).

Top Tips for Writing Easy Read Documents

Things to think about before you start

Who the information is for

What they need to know

Words

Use short words

Avoid putting more than one idea in a sentence

Stick to concrete ideas

Try to use I, we, you

Try to use the present tense

Try not to use jargon or long, hard words

If you must use a hard word, explain what it means

Numbers

Write numbers in figures

Length

Write short sentences

Keep your documents short

Pictures

Pictures should support the meaning of the words

Pictures must be easy to understand

Pictures can be drawings, photographs or other images

Make pictures as big as possible

Layout

Use a large font size (at least 14 point)

Use plenty of white space

Testing

Once you have written your document read it out loud. Can you get rid of more words?

Then ask someone who might use the document to read it. If they struggle with parts of it, you need to make changes.
