

FREE PERSONAL CARE - Government Legislation from 1 July 2002

If you are 65 or over, in residential care and fully fund your own care, you will be entitled to a contribution of £171 per week towards the cost of personal care. This will be paid directly to the care home.

If you choose to receive the £171 contribution towards your personal care, you will no longer be eligible to receive attendance allowance or the care component of disability living allowance. If you have been receiving either of these benefits, you must inform the Department for Work and Pensions of the change in your circumstances.

WHO SHOULD READ THIS LEAFLET?

You should read this leaflet if you are either:

- Someone who goes into a residential home for **temporary** care; **or**
- Thinking of moving **permanently** into a residential home; **or**
- An existing resident in a local authority home; **or**
- A relative, carer and/or friend requested to read this leaflet by any of the persons above.

WHAT IS THE PURPOSE OF FINANCIAL ASSESSMENT?

The purpose of the assessment is to work out how much of the residential accommodation charge will be paid by the Council, and how much will be paid by you.

To work this out, you will need to give details of your income, your savings and in some circumstances what property you own.

WHEN IS THE ASSESSMENT MADE?

- If you are planning a period of temporary care in a residential home a financial assessment needs to be made each time before you arrange a stay;
- If you are thinking of moving permanently in to a residential home a financial assessment needs to be made before you accept a place;
- If you are already living in a residential home a financial assessment needs to be made if your financial circumstances change.

WHO DOES THE FINANCIAL ASSESSMENT?

Community Care Services employs a **Financial Assessment Officer** to carry out these assessments. Contact details are overleaf.

WHAT IS TAKEN INTO ACCOUNT IN THE ASSESSMENT?

- Weekly income from all sources.
- Value of property in certain circumstances.
- If you have savings of between £16,250 and £26,250 you will have to make a weekly contribution from this of £1 for every £250 (or part of £250) you have over the lower limit.

- If you have savings or assets worth more than £26,250 you will have to pay the full charge.

WHAT IS NOT TAKEN INTO ACCOUNT IN THE ASSESSMENT?

- You are allowed to retain £25.05 per week for personal expenses.
- Savings and assets to the value of £16,250 are disregarded in full.
- Some weekly income from the Department for Work and Pensions benefits is disregarded.
- Value of property in certain circumstances is disregarded.

WHAT IF MY CAPITAL REDUCES?

- If you are in residential care, and your savings fall to £26,250 you should inform the Financial Assessment Officer immediately, as you will be entitled to a financial assessment and your care charges may be significantly reduced.

FOR TEMPORARY CARE

The Local Authority will disregard an additional sum towards home commitments.
