

Core Paths Still to Complete

The following is a list of Core Path Routes that still have to be improved. The Core Paths Plan was adopted on the 25th March 2009. Our target was to complete work all the Core Path routes prior to April 2011. Due to constraints on time exacerbated by weather conditions etc., there remain a handful that still have to be completed. This work will hopefully be completed in the course of 2011.

Please Know the 'Scottish Outdoor Access Code' before you go and take note of it's three main principles when accessing the outdoors:

- **Respect the interests of other people:** Be considerate, respect privacy and livelihoods, and the needs of those enjoying the outdoors.
- **Care for the Environment:** Look after the places you visit and enjoy. Care for wildlife and historic sites.
- **Take Responsibility for your own actions:** The outdoors cannot be made risk free for people exercising access rights; land managers should act with care for people's safety.
