Participatory Budgeting Flowchart

We want to do a PB project

- Why are we doing it and what are our aims and objectives?
- How much time do we have?
- How will we promote our PB, logos, publicity etc

Setting Priorities

- What do we know about our community and how do we know it?
- Do we need to do a community consultation?

Inviting Applications

- Do we need to encourage applications
- Do we need to help groups with applications?
- Are there ideas out there which can be matched with groups?

Check & Share Applications

Do the applications meet our priorities?

Plan & Promote Voting Day

- What kind of event would suit our community?
- How can we make it appealing?
- What other things might our community welcome at event?

Voting Day

- Is voting fair?
- Is the community enjoying the event?
- Is it enabling important community issues to be addressed?

Enable projects To start

- Do groups need help to get started?
- Have we a fair, clear process for giving them the money?
- Can the unsuccessful projects be helped in other ways?

Monitor Projects

- How are groups managing?
- Can we help?
- Can the community see progress? (can we publicise success?)

Evaluate Entire PB project

- Have individual projects achieved their aims?
- How has PB been seen in the community?
- What have we achieved overall?
