

Activity Sheet - Fishing leaflet!

Materials required: Pen, paper, imagination!

Materials provided: None.

Method: Think about fishing in the past. What kind of boats did they have? How did they use them? Who went out fishing? Where to, and for how long? What was life like? What fish did they catch? How did they keep the fish from rotting? How long were they out at sea for? What time of year did they go out to sea? What was the weather like? Did anyone get seasick? Were there any storms?

Write a leaflet explaining what life was like as a fisherman in the 19th century.
