

## Activity Sheet - Create a soundscape!

**Materials required:** Instruments and recording materials

**Materials provided:** None.

**Method:** Make a soundscape that gives people an idea of life out at sea in the 19<sup>th</sup> century. Think about the people, their boats, the fish they caught, how they caught them (nets/lines), what the weather was like etc. Work in groups and use your imagination! This can be in audio, or documentary style - use pre-recorded sounds, or sounds you record yourself, and be creative!
