

Shetland Islands Council Outdoor Education Generic Risk Assessments

Land Activities: Sea Level Traversing/ Coasteering		Risk to: Instructors/ Group Members
Hazard	Risk	Control measures
1. Climbing Activity	Approach to venue Falls from crag Falling objects Rope burns Entanglement	<p>Instructors are trained to NGB or SIC standards in group management and instructional techniques appropriate to the level of the activity</p> <p>Instructors choose a suitable venue taking account of the nature of the activity, the ability level of the group, weather conditions and the equipment available.</p> <p>Group members are briefed on hazards specific to the area being used and are instructed in the skills and techniques needed to avoid them/deal with them.</p> <p>At or on the crag group members wear a safety helmet, which meets the appropriate specifications. The instructor and the group carry safety equipment appropriate for the specific activity and venue.</p>
2. Water Activity	Immersion Entrapment Collisions Water level/state	<p>Instructors are trained to NGB or SIC standards in group management and instructional techniques appropriate to the level of the activity.</p> <p>Instructors choose a suitable venue taking account of the nature of the activity, the ability level of the group, water and weather conditions and the equipment available.</p> <p>Group members wear or carry clothing appropriate for the specific activity and venue. Group members wear a buoyancy aid, which meets the appropriate specifications.</p> <p>Helmets meeting the appropriate specifications will be worn depending on the location and nature of the activity.</p> <p>The instructor and the group carry safety and rescue equipment appropriate to the specific activity and venue.</p> <p>Group members are instructed in correct technique to jump into water from height.</p>
5. Strong sea well and large waves	Unintentional swim due to being washed off or falling in	Participants are briefed on prevailing conditions and told what to expect, how to react and what to do in the event of unintentional swim occurring. Instructor verbally and visually warns participants of incoming waves. Where exposed to large waves/ swell the group will be kept in a safe area until asked to move. A throw line will be at hand at all times.
6. Barnacles and sharp rock	Cuts and grazes	Participants are shown how to place hands and feet. Also shown the best way to get out of the water and what to do when they are being washed around or near to rocks. Demonstration and/ or practice to help learn good technique.
7. Equipment	Unsuitability Failure Damaged Wrongly fitted	<p>All equipment meets current specifications and/or accepted standards where applicable and is suitable for its intended use.</p> <p>Equipment is regularly maintained, serviced and where required tested to current specifications.</p> <p>Instructors visually check equipment at time of issue. If group members are using their own equipment the Instructor will ensure it is suitable for the expected conditions and nature of the activity.</p>
