Sullom Voe VTS

Notice to Mariners No 11/2021

Mariners are advised that following the installation and extended testing of a new VTS system that the additional measures required to maintain navigational safety during the installation period can be lifted.

- The existing controls on Vessels under Pilotage operating in restricted visibility will revert to 2.5 cables.
- All vessels navigating within the Sullom Voe Harbour and Yell Sound area are requested to have AIS equipment turned on if fitted, and all vessels transiting, working within, or calling at ports within the Sullom Voe Harbour and Yell Sound area are requested to report their movements to Sullom Voe VTS on VHF Channel 14.

Please be advised that this notice cancels Notice to Mariners 09/2018 – Sullom Voe VTS.
